

Proposed Wellbeing and Sustainable Development (Scotland) Bill

Introduction

A proposal for a Member's Bill to ensure policy development and implementation by public bodies is in line with principles of sustainable development and wellbeing by introducing a duty for public bodies to promote these principles and establishing a Commissioner for sustainable development and wellbeing.

The consultation runs from 14 December 2022 to 24 March 2023

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

No Response

About you

Please choose whether you are responding as an individual or on behalf of an organisation.
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Academic with expertise in a relevant subject

Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation.

Aspects of sustainability and resilience in support of livelihoods through the maintenance and use of diversity

Please select the category which best describes your organisation

No Response

Please choose one of the following:

I would like this response to be published anonymously

If you have requested anonymity or asked for your response not to be published, please give a reason (Note: your reason will not be published):

[REDACTED]

Please provide your Full Name or the name of your organisation. (Only give the name of your organisation if you are submitting a response on its behalf).

(Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

[REDACTED]

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

[REDACTED]

Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill? (Please note, that this question is compulsory.)

Fully supportive

Please explain the reasons for your response.

Sustainability will need to become central to future wellbeing as part of any effective response to climate change, biodiversity loss, environmental damage and the continuing dependence on the growth based approach to economies.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes, legislation will be required to provide the necessary underpinning and support to the changed approaches needed.

Q3. Which of the following best expresses your view on whether 'sustainable development' should be defined in legislation?

Fully supportive

Please explain the reasons for your response, including any views on what the definition should include.

A coherent description will be needed to provide the necessary framework for testing future legislation and proposed development

Q4. Which of the following best expresses your view on whether 'wellbeing' should be defined in legislation?

Fully supportive

Please explain the reasons for your response, including any views on what the definition should include.

Perhaps a description rather than a definition would be better. We know what wellbeing is not (same goes for sustainable - we know what is unsustainable)

Q5. Which of the following best expresses your view on whether there should be a Commissioner for sustainable development and wellbeing?

Neutral (neither support nor oppose)

Q6. What, in your view, should the title of the proposed Commissioner be?

Please explain the reasons for your response.

Not relevant at this stage

Q7. Which of the following best expresses your view on whether there is a need for duties for public bodies to promote sustainable development and wellbeing in policy development and implementation?

Fully supportive

Please explain the reasons for your response including views on any barriers to implementation of these duties and on how the effectiveness of implementation could be measured.

I assume duties for public bodies to promote sustainability and sustainable development will be essential.

Financial Implications

Q8. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

Don't know

Please explain the reasons for your response, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

I am uncertain - it depends so much on the overall societal trajectory. Sustainable approaches should not be seen as acting as a barrier but as providing an alternative and more rational approach to development. For example, internalising previous external costs does not overall necessarily change the total cost of an operation

Equalities

Q9. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your response and if there are any ways you think the proposal could avoid negative impacts on particular people.

Its effect should be positive. If not it would have been poorly drafted.

Sustainability

Q10. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your response, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

Likely to enhance environment for present and future generations

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

None
