

# Proposed Wellbeing and Sustainable Development (Scotland) Bill

## Introduction

A proposal for a Member's Bill to ensure policy development and implementation by public bodies is in line with principles of sustainable development and wellbeing by introducing a duty for public bodies to promote these principles and establishing a Commissioner for sustainable development and wellbeing.

The consultation runs from 14 December 2022 to 24 March 2023

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

**Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill? (Please note, that this question is compulsory.)

Fully supportive

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes

Q3. Which of the following best expresses your view on whether 'sustainable development' should be defined in legislation?

Fully supportive

**Please explain the reasons for your response, including any views on what the definition should include.**

Definition will help to align aims, activities and metrics to track and deliver progress.

An agreed standard definition across UK nations will help consistency in delivery at UK, national and local level. This will be important as some organisations such as third sector organisations may assist in implementation across different UK nations.

Q4. Which of the following best expresses your view on whether 'wellbeing' should be defined in legislation?

Fully supportive

**Please explain the reasons for your response, including any views on what the definition should include.**

Would be good to link into health inequalities work, take a holistic view. Good to consider conditions and opportunities for success, and support when facing life challenges. There seems to be blurred lines between what the state is responsible for in regard to supporting the most vulnerable in society vs. the work of charities or grassroots groups. Is it possible to provide some definition about this to make sure no-one falls through the cracks?

Q5. Which of the following best expresses your view on whether there should be a Commissioner for sustainable development and wellbeing?

Fully supportive

**Please explain the reasons for your response, including any views on what the key functions of the proposed Commissioner should be (see pages 19 to 20 of the consultation document), what model of governance could be adopted (see page 22 to 23), and whether the Commissioner could play a role in strengthening existing duties or legislation.**

Yes, to educate, implement and report progress.

Q6. What, in your view, should the title of the proposed Commissioner be?

Please explain the reasons for your response.

Future Generations Commissioner (for Scotland)

Q7. Which of the following best expresses your view on whether there is a need for duties for public bodies to promote sustainable development and wellbeing in policy development and implementation?

Fully supportive

## Financial Implications

Q8. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

Don't know

**Please explain the reasons for your response, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.**

Implementation of policies at national level in a national framework are likely to deliver cost efficiencies as opposed to pushing responsibilities at local level.

## Equalities

Q9. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your response and if there are any ways you think the proposal could avoid negative impacts on particular people.

This proposed Bill would positively impact equalities in Scotland.

## Sustainability

Q10. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your response, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

*No Response*

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Thank you.
